New knives and scissors
for electrical works

VARIX
EZ CABLE STRIPPER
DK-MC40L

VARIX
SMOOTH CUT SNIPS
DK-BM50

Newly engineered knives and scissors
for optimal safety and work efficiency.
TAJIMA has developed specialized
cutting tools tailored for electricians
and construction professionals, some
featuring razor-sharp hollow-ground
blades, a non-slip elastomer grip, and
a safety lock mechanism.
The TAJIMA knives and scissors have
been upgraded with cutting-edge
features, inspired directly by user
feedback.

HOT NEWS
VOL. 23

VARIX EZ CABLE STRIPPER

- Adjusting the blade opening automatically according to the cable diameter
- Equipped with a guide for stable stripping
- Lock mechanism with one-handed operation to prevent accidental opening
- High-durability and hard chrome-plated blades
- Non-slip elastomer grip
- With lanyard attachment hole
- Replaceable blade

Position the blades where to strip sheathing, and rotate them sideways.

Peel sheathing off (Sheathing can be stripped off even with the blade inserted vertically.)

Hold the insulation vertically and make slits with the blades

Strip the insulation by twisting it according to the arrow direction.

VARIX SMOOTH CUT SNIPS

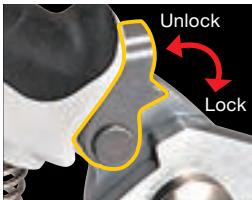

- Equipped with one-touch safety lock and spring mechanism
- Robust large blades for cleanly cutting through conduits, cables, and cable ducts
- Non-slip elastomer grip for a secure and comfortable hold
- With deburring grooves
- With lanyard attachment hole

Cutting capacity

- Up to 1.26 in (32 mm) wide for wire moldings with plastic materials
- AWG 10 (5.5 mm²) × 3 cores for SOOW cables / SJOOW cables
- 1.18 in (30 mm) dia. for plastic materials (corrugated conduit / flexible conduit)

Spring mechanism

One-touch safety lock

VARIX NON-STICK SCISSORS

Blade case

- Ideal for cutting electrical tape, adhesive tape, packing tape, thin wire and PP strapping band
- Long blades for cutting 2.0 in (50 mm) wide tape all at once
- Adhesive-resistant Fluoro-Coat blades
- Cut thin wires with cutting notches

Cutting capacity

- Electrical tapes
- Stranded wire with cross-sectional area of 2.0 mm² or less
- PP strapping band

Adhesive-resistant Fluoro-Coat blades

Cut thin wires with cutting notches

Protective blade case

VARIX SINGLE RING SHEARS

Blade case

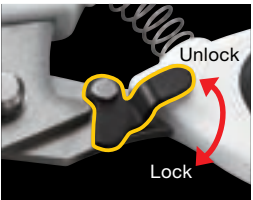

- Ideal for cutting heat insulating materials (glass wool, rock wool), sound insulating sheet, wire mesh (zinc coated Hexagonal wire mesh), and rubber
- Spring mechanism allows one-handed continuous work with less fatigue
- Elastomer grip provides non-slip gripping

Cutting capacity

- Up to 2.0 in (50 mm) thickness of glass wool and rock wool
- Up to 0.05 in (1.2 mm) thickness of rubber and sound insulating sheet
- Up to 0.02 in (0.4 mm) thickness of zinc coated Hexagonal wire mesh
- Protective Board : Up to 0.06 in (1.5 mm) with PP, Up to 0.08 in (2.0 mm) with foam

Spring mechanism

One-touch safety lock

Protective blade case

VARIX CHISEL KNIFE

Blade protector

- Equipped with a hollow-ground blade designed for smooth, precise splitting of THWN/THHN and NM cables
- Chisel-like blade tip for added versatility
- Steel blade with hard chrome plating
- Hammer-ready full-tang blade with an end cap to prevent metal-to-metal contact

Sufficient striking end

Hollow-ground blade

Blade protector

VARIX FOLDING COMPACT KNIFE

Foldable

- Electrician's folding compact knife
- Hollow-ground blade enables the knife to make a slit in THWN / THHN cable and NM cable
- Hard chrome plated blade
- Non-slip elastomer grip
- Wrench hole for temporary tightening

With pushing the blade stopper down, fold the blade inward

Equipped with lanyard attachment hole that also holds and attaches a cable crimp sleeve at the hole

Hollow-ground blade

Wrench hole allows attachment to a carabiner
